

OUT OF HOSPITAL, SHE ASKS DIVORCE

Mrs. Lewis Says Three Years' Abuse Was Enough.

Making allegations that her husband had treated her brutally, and that she had been forced to go to a hospital for five weeks, Mrs. Anna L. Lewis today filed suit in the District Supreme Court for an absolute divorce from James T. Lewis, a bartender, of Georgetown.

Because of threats to kill her and "terrible abuse," Mrs. Lewis alleges that she has not lived with her husband since early in September. She charges that his cruel treatment began three years after their marriage in October, 1904.

A rule was issued requiring Lewis to appear in court and show cause why he should not pay alimony pending the suit.

Walter C. Balderston represents Mrs. Lewis in her action.

FARMERS IGNORANT, SAYS DR. WILEY

Country Folk Would Live Longer, Chemist Declares, If They Knew Sanitary Laws.

"The Public Health as the Greatest of Our National Resources" was the subject of an address by Dr. Harvey W. Wiley, chief of the Bureau of Chemistry, before the Christ Church Parish Club, in Potomac Savings Bank Building, Georgetown, last night.

Dr. Wiley said that one of the most amazing facts determined by statisticians is that the farmer dies at a far earlier age than the city-bred man. The only explanation of this, he said, is the fact that the American farmer knows nothing of sanitation, and does not want to, as he is used to doing things the way his father did.

URGES SUPPRESSION OF THE LOAN SHARK

The movement toward the suppression of loan sharks today has many new advocates because of a strong lecture given last night by Louis A. Rosafy, of the Society for Savings, before the Men's Society of the Church of Our Father. Mr. Rosafy declared that one of the most needed reforms of the day is to bring the loaning of money to poor people under competent authority. He endorsed the bill now pending before Congress.

WAGGAMAN TAX AT LAST PAID

Art Gallery Controversy Is Settled By a Compromise.

Charles C. Rogers, collector of taxes, has received from H. Rosier Dulany, trustee of the estate of the late Thomas E. Waggoner, a check for \$4,900 in payment of the personal taxes on the Waggoner art gallery for the years 1902, 1904, and 1905.

The settlement of the tax bill was the result of a compromise effected by Corporation Counsel E. H. Thomas with the attorney of the trustee of the Waggoner estate. The taxes amounted to \$1,900 a year ago, but a part of the assessment for the year 1905 was remitted, as there was some question as to the date of the presentation of the art gallery to the Catholic University. Following the usual procedure in bankruptcy cases, the penalties were remitted also.

The compromise was approved by the Supreme Court of the District November 4.

MONITOR A WRECK AFTER EXPLOSION

Towed to Drydock With Side and Aft Battered by Nitroglycerin Gelatine.

FORT MONROE, Va., Nov. 16.—Further examination shows the monitor Puritan was damaged Tuesday night to a greater extent than naval authorities expected could result from "unconfined" explosives.

They had made arrangements to turn the vessel over to the naval militia at the conclusion of the experiments. Nitroglycerin gelatine was placed in two charges of 200 pounds, one against the aft turret and the other against the side plate of the turret, eight inches thick, and caused a depression of about eight inches. The second caused more damage, and tugs were hastily summoned to tow the vessel to dry dock.

The entire \$30,000 stock of furniture, household decorations, hangings, exquisite bric-a-brac, cut glass, silverware, clocks, and lamps at absolute sale within the sales-rooms of the Economy Co-Operative Society, corner 9th and Grant Place N. W., every morning, commencing at 10 o'clock a. m., and continuing daily at same hours until entire stock is disposed of. Night sale, Wednesday night, beginning at 7 o'clock.

By direction of the Board of Directors of the Economy Co-Operative Society, whom the law compels to reorganize, I will sell to the highest bidder for cash their entire stock of desirable and valuable household furniture and appointments.

A rare opportunity to purchase desirable goods at your own price. Goods now on view. N. B.—Rooms comfortable and chairs provided for ladies.

MARKET EMPLOYEE TAKEN BY POLICE

Talks of Delivering Groceries in Aeroplanes and Is Locked Up.

William A. Weaver, fifty-two years old, of 125 K street northwest, was taken in custody by Patrolman Stringfellow, of the Third precinct, this morning on a charge of insanity.

Weaver is a former inmate of the Government Hospital for the Insane, and was taken in charge by the police at the request of his wife, who feared her husband might do himself bodily harm.

Weaver was employed in a Connecticut avenue market until a short time ago. At last night he sat on telling his wife how aeroplanes would be used to deliver groceries within a few months. He told the police he jumped out of a second-story window a short time ago, and also made an attempt to cut his throat. He was sent to the Washington Asylum Hospital for observation.

MANUAL COURSE FOR GRADE PUPILS

Provision for young men who wish to learn a trade while in the grade schools will be made by school officials if an appropriation for additional manual training teachers is granted by Congress.

The first announcement of the purpose for which this item is to be expended, if granted, was made public today by P. M. Hughes, assistant superintendent of schools.

The experiment is to be tried in the new building to be erected at Wisconsin avenue and Thirty-second street northwest, on the site of the present High Street School.

The idea is to have a special course for the seventh and eighth grades, in which fully one-half of the pupils' time will be given to the learning of the rudiments of some trade, as carpentry, plumbing, printing, and others.

The work of removing the furniture from the old High Street School, preparatory to tearing down the historic structure for the new manual training building, was begun today. The new building will be erected under an appropriation of \$45,000.

Ten Days' Function at St. Stephen's Expected to Pay a Debt.

Remarkable Values in Diamonds

Last month we received a large importation of Blue White Diamonds (unmounted). We bought these brilliant gems at a very close price. We have mounted 300 of these in the very latest mountings. Our position is impregnable, because we eliminate costly selling methods (we import and mount our Diamonds). We are satisfied with small profits. Consequently our first cost is less than others, our expense of selling less, so our prices are lower than others charge for equal qualities.

The people of Washington showed their appreciation of our value-giving during our recent Watch sale. This sale offers bigger values, and a deposit reserves any article for Xmas delivery.
